Flathead County

Located in northwestern Montana, Flathead County is Montana’s fourth most populous with 76,269 residents, according to the 2001 estimates produced by the U.S. Census Bureau.

Kalispell, the county seat, is the state’s seventh largest city with a population of 14,223, according to the 2000 Census. The city is the trade center of northwest Montana and located at the junction of U.S. Highways 2 and 93. The area is renowned for its Flathead cherries and Christmas tree farms. It’s also a gateway to Glacier National Park and located between the Blackfeet Indian Reservation, Montana’s largest, and the Flathead Indian Reservation.

According to the *Montana Almanac*, by authors Andrea Merrill and Judy Jacobson, the county was established in 1893 and the area was called ‘the park between the mountains’ by the Salish Indians.

According to the U.S. Bureau of the Census, median income for Flathead County households in 1999 was \$34,466. The county is 5,256.6 square miles in area; 5,098.6 square miles in land area and 158.0 in inland water area.

County residents experience the four distinct seasons. According to the *Western Regional Climate Center*, the average daily low in Kalispell (airport readings) in January between 1971 and 2000 was 13.8 degrees above zero. The average daily high in July was 80.2 degrees above. The average annual precipitation during the same period was 17.21 inches. The growing season was from May 23 to Sept. 18 (last and first frost).
